Answer Key

Chapter 11

Section 3

Reteaching Activity

A. Comparing and Contrasting Economic Information

1. The Dow peaked in May 2006; the NASDAQ also peaked in May 2006.
2. Both indexes reached their lowest point in October 2005.
3. They are very similar.
4. Stocks on the Dow represent the economy's most important sectors. NASDAQ stocks are primarily issued by companies involved in technology.
5. Over the counter trading, made possible by a centralized computer system.
