Investigate Log

Independent Inquiry

When you compare, you tell how things are alike and different.

Materials

Here are some materials you might use.

Draw other materials you may need.

spray water bottle

1. Blow on the back of your hand. How does it feel?

Possible answer: My hand feels cool when I blow on it.

2. Spray some water on your other hand. Blow gently. How does it feel?

Possible answer: My wet hand feels very cool when I blow on it.

3. Compare. Tell how your hands feel alike and different.

Both hands feel cool when I blow on them. But the wet hand feels cooler than the dry hand.
