3. Main Idea and Details

Use this chart with the Lesson Review.

Measuring Weather

Main Idea
You can measure weather in many ways.

detail	detail	detail
You can measure Ⓐ temperature, which is how hot or cold it is.	You can measure how much Ⓑ rain has fallen.	You can measure the Ⓒ speed and Ⓓ direction of the wind.

4. Critical Thinking and Problem Solving

You want to measure how much rain falls in a week. But if you leave your rain gauge out all week, it may spill over. What can you do? Write a plan.

Possible answer: I could check the rain gauge each day. I could write how much rain fell and then empty the gauge.

After one week I could add the numbers up.
