Name _____

Investigate Log

Independent Inquiry

When you compare, you tell how things are alike and different.

Materials

Here are some materials you might use.

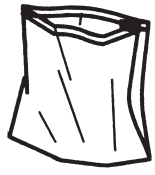

Draw other materials you may need.

apple rings

string

plastic bag

1. Put some apple rings on a string. Hang the string so the rings do not touch.
2. Put the other apple rings in a plastic bag. Seal the bag.
3. Wait a week. Then observe the rings. Compare how they have changed.

Possible answer: The rings in the bag got brown and mushy. The rings on the string got brown but they dried out.

4. Which way to store apple rings is better? What makes you think so?

Possible answer: The string is better. Then the apples do not rot.
