It's Nutty!

Materials

forceps, magnifying box

Other Materials
five different nuts (unshelled), paper, pencil

What to Do

- Number the nuts from one to five. Use the forceps to place the first nut in the magnifying box. Draw what you see. Remove the nut from the box, using your forceps.
- Repeat the activity for the other four nuts. How are they alike? How are they different? Answers will vary.

Inquiry Check

Ask a partner to match each of the nuts with the drawings.

Inquiry Skills Observe, Compare

Nature of Science
Observe the same things often and compare them.
