Lesson Quick Study

Lesson 3 - How Do Plants Grow and Change?

1. Inquiry Skill Practice–Sequence

Draw the two missing pictures. Show how the bean plant grows.

first

Child's drawing should show a sprouted or young bean plant.

then

Child's drawing should show an adult bean plant.

next

last

2. Use Vocabulary

Look at this seed. Write a sentence about how the **seed coat** helps the seed.

Possible answer: The seed coat keeps the seed safe.

Name _____

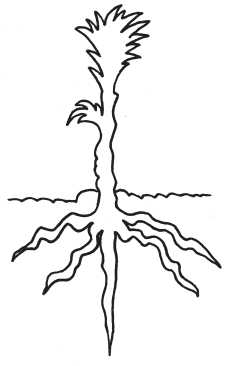

3. Sequence

Use this chart with the Lesson Review.

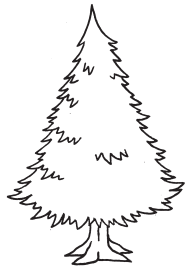

Life Cycle of A Tree

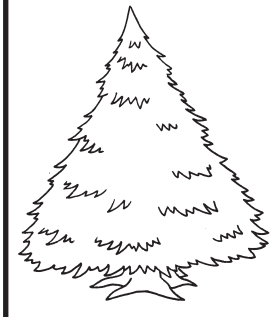

(A) Cones hold (B) seeds.

Roots grow down and a green (C) stem grows up.

The (D) stem becomes woody.

The tree grows into an adult tree.

4. Critical Thinking and Problem Solving

You find a seed, but you do not know what kind of plant it came from. How could you find out? Write a plan.

Possible answer: I could put the seed in soil and observe the plant that grows. It will be the same kind as the one that made the seed.
