Lesson Quick Study

Lesson 4 - How Can We Group Plants?

1. Inquiry Skill Practice–Classify

Look at these plants. Think of two ways to classify them. Write about the groups you could make.

carrot

rose bush

pine tree

plum tree

lettuce

I could classify the plants by _____

Possible answer: their stems.

I could classify the plants by _____

Possible answer: which have edible parts.

2. Use Vocabulary

Complete the sentence to tell what the word **edible** means.

An **edible** plant _____

Possible answer: has parts you can eat.

Name _____

3. Compare and Contrast

Use this chart with the Lesson Review.

Trees and Shrubs

alike	different
Both have (A) woody stems.	Most (B) trees have one big main stem.
	(C) Shrubs have many smaller stems.

4. Critical Thinking and Problem Solving

Think of something you could make from plants. Write about it. Tell how you would use plants.

Possible answer: I could make a snack from plant foods. I could make celery sticks with raisins and peanut butter. Celery, raisins, and peanuts all come from plants.
