Lesson Quick Study

Lesson 1 - What Are the Parts of a Plant?

1. **Inquiry Skill Practice–Observe**

Plant A got sunlight, air, water, and nutrients. Plant B did not. Observe both plants and tell about the parts of each plant.

Plant A

Plant B

Observations: Possible answer: The plant has lots of leaves. It has flowers and a straight stem.

Observations: Possible answer: Most of the leaves and flowers fell off. Its stem is droopy.

2. **Use Vocabulary**

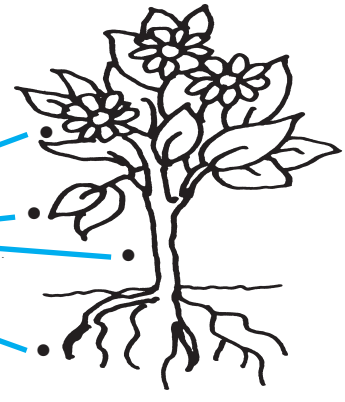

Match the term to the part of the plant it describes.

roots •

stem •

leaves •

flower •

3. Main Idea and Details

Use this chart with the Lesson Review.

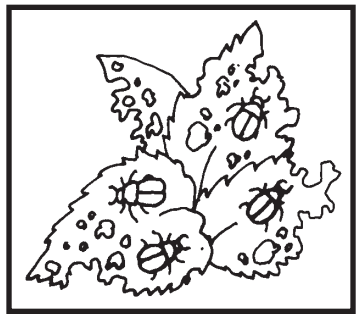

Main Idea and Details

Each part of a plant helps the plant get the things it needs to live.

Roots take in (A) water and nutrients from soil.	A (B) stem carries water to the leaves.	Leaves make (C) food for the plant.	(D) Flowers help plants make new plants.

4. Critical Thinking and Problem Solving

Observe the plant. What might happen to it? Why?

Possible answer: The plant may die because the insects are eating all its leaves. The plant needs its leaves to make food.
