**Name** _____ **Date** _____

Lesson Review, Page 281
Answer Key

1. Children should give the sequence of the seasons.
2. In summer, it is often hot and sunny with sudden storms. In fall, the air gets cooler with some sunny days and some cloudy days. Because this happens every year, it is a weather pattern.
3. Plants and flowers would not bloom until later in the year; spring would start later than usual.
4. Possible answer: Weather can change with the seasons. In spring the weather can be warm and rainy. In summer the weather can become hot. The weather gets cooler in fall. In winter the weather changes again. It gets colder and it may snow.
5. B; Trees grow new leaves.
