Name _____ **Date** _____

Recording Data
Answers Will Vary

1. Have an adult make five mystery bags for you.
2. Smell inside the bag without looking in it.
3. Record your data on the chart.

Bag	What do you think is in the bag?	How do you like the smell?
1	Answers will vary, but should be appropriate to the activity.	
2		
3		
4		
5		

Now look inside the bags. Were you right about any of the smells?

Conclusion: What kinds of smells do you like? Answers will vary but should be appropriate to the question.

How did recording your data help you? Answers will vary but should be appropriate to the question, referencing the idea that keeping track of data can help make an experiment's findings more clear and easier to understand.
