Name _____ **Date** _____

Lesson Review, Page 36-37
Answer Key

Vocabulary Review

1. Inquiry Skills
2. Investigate
3. Science Tools

Check Understanding

4. B; Classifying is an inquiry skill.
5. J; Form a hypothesis.

Critical Thinking

6. They are science tools because they are objects that can help you answer a question or find out information as part of an investigation.
7. Miguel must do a fair test because the results from the test will give him information that he can then use to find out if his hypothesis was correct.
