Name _____ **Date** _____

Lesson Review, Page 57
Answer Key

1. Children should give clear examples such as living things need food, nonliving things do not.
2. Living things grow and change, can make new living things, and need food, water, and oxygen. Nonliving things do not make new things like themselves, and they do not need food, water, or gases.
3. Children should answer **nonliving**.
4. Living things need food, water and oxygen, but nonliving things do not. Living things can make new living things, but nonliving things cannot make other things like themselves.
5. B; a living thing
