What Birds Eat

Materials

dish of birdseed

dish of berries

dish of breadcrumbs

1. With your teacher, place the three kinds of bird food outside where birds can find them.
2. **Observe** the bird food in the morning, at noon, and in the afternoon. Record your **observations** in the chart.

What Birds Eat			
	birdseed	**berries**	**breadcrumbs**
morning			
noon			
afternoon			

3. Use your chart to tell what you **observed** about what birds outside your school like to eat.

Answers should reflect an understanding of what birds like to eat.

Name _____

Investigate Log

Independent Inquiry

When you observe animals, you can learn more about their needs. Make observations about how birds use food and water.

Materials

Here are some materials that you might use. Draw other materials you may need.

dish of birdseed

bowl of water

1. With your teacher, place a dish of birdseed and a shallow bowl of water outside.
2. Observe the birds. Describe or draw three of the birds you see. Watch how they use the food and water. Record your observations in the chart. Give your chart a title.

Title Accept reasonable answers.

	Did it eat food?	Did it drink water?
bird #1		
bird #2		
bird #3
