Name _____ **Date** _____

Lesson Review, Page 65
Answer Key

1. Children should give clear examples of details such as: food, water, shelter, and oxygen.
2. The prairie dog survives by using holes in the ground for shelter. This helps it hide from animals that would eat it.
3. Animals need different kinds of shelter depending on their size, the kind of animal they are, and where they live. Large animals need larger shelters than small animals; animals that live in water must find shelter in water; animals that can fly or climb can find shelter in trees.
4. Sentences will vary but could be similar to *Animals need food and air. Animals also need shelter, water, and space.*
5. Because their bodies are smaller
