

Pet Graph

1. Ask 10 classmates if they have pets.
Color the graph to show what you found out.

Use your graph to answer the questions.

- | | |
|---|---|
| <p>2. How many children have pets?</p> <p style="text-align: right;">_____ children</p> | <p>3. How many children do not have pets?</p> <p style="text-align: right;">_____ pets</p> |
| <p>4. Did more children say yes or no? Circle.</p> <p style="text-align: center;">yes no</p> | <p>5. What is the difference between yes and no?</p> <p style="text-align: right;">_____ children</p> |

Stretch Your Thinking

Think of another yes or no question to ask friends. Make a bar graph to show what you found out.
